ECOSUPERIOR ENVIRONMENTAL PROGRAMS SUMMER PROGRAM ADVERSE WEATHER POLICY

The EcoSuperior Environmental Programs' Summer Program is hosted at the Central Natural Environmental Gardens. There is no permanent shelter at the Gardens, and as such EcoSuperior Environmental Program erects a 12' x 12' white walled tent each programming season. The tent is more than adequate for providing shade on sunny days, and shelter on drizzly days. In the event of extreme weather (i.e. severe thunderstorm warning, flood warning, tornado warning etc.) the Summer Program participants will be moved to the EcoSuperior Environmental Programs' office located at 562 Red River Rd.

If weather warnings are predicted preceding a day of programming, parents will be notified the afternoon before to drop off participants at EcoSuperior's office the following morning.

If weather warnings develop during the day, participants will be moved to EcoSuperior's office via taxi, with the expense being the responsibility of EcoSuperior Environmental Programs. Parents/Guardians will be notified as to the change in pick up location.
