

EcoSuperior is seeking a Certified Energy Advisor!

If you are looking for work that is rewarding and flexible, consider joining EcoSuperior's team of Certified Energy Advisors. You'll be analyzing homes for energy consumption and helping homeowners access rebates for home improvements. Remuneration is on a per file completed basis, and travel throughout northwestern Ontario is required, with all expenses reimbursed.

This position is open to existing certified advisors, or someone with the right qualifications willing to attend a one-week training program and complete the certification requirements of Natural Resources Canada. Previous experience in the home building, renovation or construction industry is a must.

Qualifications:

- Home building and/or construction background
- A minimum of 2 years experience in the building/renovation industry
- Home Inspector training or experience an asset
- Computer literate, with post secondary education
- Physically fit
- Excellent communication skills and customer service attitude.

Equipment requirements:

- Valid G license and use of a reliable vehicle
- Blower Door equipment (we can provide this for you)
- Laptop computer with 1GHz or higher with colour printer
- A digital camera
- Scanner
- High speed internet connection
- Step ladder, flashlight, basic hand tools

Advisor training includes:

Building science classroom courses using the "house as a system" approach

Field Training on residential homes

Computer software training and assistance

Preparation for NRCan Exam

Advisor certification requires the completion of the NRCan Certification exam.

Interested? Here's how to apply:

Submit your resume to info@ecosuperior.org with Energy Advisor in the subject line. Deadline for applications is August 12, 2016.

Only those applicants selected for an interview will be contacted. Applicants must write a pre-qualification exam focused on house construction knowledge.
