

Furnace/Boiler

\$1,000 For replacing a 94% or less AFUE natural gas, propane, or oil furnace, or; 89% or less AFUE natural gas, propane, or oil boiler, or; With a 95% or higher AFUE condensing natural gas, propane, or oil furnace

- 90% or higher AFUE condensing natural gas, propane, or oil boiler

Note: The combi system qualifies as a boiler and is eligible for the rebate ³
Electrically heated homes are not eligible.

Wood Burning System

\$375 For replacing a wood-burning system or appliance with one of the following:

- An indoor wood-burning appliance certified to either CAN/CSA-B415.1-M92 or the United States Environmental Protection Agency (EPA) 40 CFR Part 60 wood-burning appliance standard. Appliances exempt from EPA testing are not eligible unless they are B415.1-M92 certified.
- An indoor pellet-burning appliance (includes stoves, furnaces and boilers that burn wood, corn, grain or cherry pits).
- An indoor masonry heater.

Or

For replacing a solid fuel-fired outdoor boiler with an outdoor wood-burning appliance certified to either CAN/CSA-B415.1 or United States Environmental Protection Agency (EPA) Outdoor Wood-fired Hydronic Heater (OWHH Method 28) Program (Phase 1 and 2). The capacity of the new equipment must be equal to or smaller than the capacity of the boiler being replaced.

Water Heater ¹

\$500

- For replacing your water heater with 0.80 EF or higher tanked natural gas or propane water heater or;
- For replacing your water heater with 0.82 EF or higher tankless natural gas or propane water heater

Note: The combo system qualifies as a water heater and is eligible for the rebate ⁴.
Electric water heaters do not qualify for the rebate.

Window/Door/Skylight ²

\$80 For each window, door or skylight replaced with ENERGY STAR-qualified model.

(1) Maximum one water heater rebate per home.
(2) \$80 rebate per rough opening. Bay window considered one rough opening.
(3,4) A combi or combo system CANNOT qualify for both the space heating boiler rebate and the domestic hot water rebate; it counts as one measure

Basement Insulation ^{1,2,3}

\$1,250 For adding at least R23 to 100% of basement

\$750 For adding at least R12 to 100% of basement

\$1,000 For adding at least R23 to 100% of crawl space wall

\$500 For adding at least R10 to 100% of crawl space wall

\$500 For adding at least R24 to 100% of floor above crawl space

Exterior Wall Insulation ¹

\$1,750 Add at least R9 for 100% of building to achieve a minimum of R12.

\$1,250 Add at least R3.8 for 100% of building to achieve a minimum of R12.

Attic Insulation ⁴

\$500 For increasing attic insulation to at least R50 from R12 or less.

\$250 For increasing attic insulation to at least R50 from R13 to R25.

\$500 For increasing cathedral/flat roof insulation by at least R14.

Air Sealing

\$150 Achieve 10% or more above base target

\$100 Achieve base target

(1) The rebate is prorated based on the percentage of wall area insulated and does not include walls between individual units. For a semi-detached, rebates are 75 percent of the amounts shown.
(2) When both a basement and crawl space are present, all applicable grants are pro-rated to a maximum of \$1,250 based on the total wall area.
(3) Can qualify for either crawl space wall or floor above crawl space rebate.
(4) Insulate a minimum of 20% of the total ceiling area. When the roof consists of more than one type and/or sections (i.e., any combination of attic, cathedral ceiling and flat roof), rebates are pro-rated based on the total ceiling area percentages upgraded. The rebate for any combination of attic, cathedral ceiling and flat roof cannot exceed \$500.

Planning a new furnace, new windows, insulating the attic or basement? Home Energy rebates are back!

Looking to make the most of the available savings? Here's how you can do it:

1. Call EcoSuperior 624-2141 or check our website at www.ecosuperior.org to make sure your home qualifies.
2. Complete your pre-renovation energy assessment.
3. Review your assessment and renovation options with your energy advisor.
4. Complete at least two of the eligible renovations.
5. Call EcoSuperior to complete your post-renovation assessment.

Your advisor will collect and submit all the necessary paperwork to Union Gas. You will get your rebate cheque within 90 business days of submission.

Other Rebate enhancements

- Maximum rebate of \$5,000 including up to \$500 for the cost of the energy assessments.
- Customers participating in the Home Reno Rebate program are eligible for a \$100 rebate towards the purchase of a Smart Thermostat once they have completed their post renovation assessment.
- A bonus rebate of \$250 per measure, calculated for 3+ measures
 - If a customer completed 3 measures, they will be eligible for \$250 in bonus
 - If a customer completed 4 measures, they will be eligible for \$500 bonus, and so on.
