

Sweet Joe-Pye Weed

Eutrochium purpureum

A butterfly favorite! Many people perceive Joe Pye weed to be nothing more than a roadside weed and have never seriously considered its outstanding ornamental attributes. It is a substantial plant which needs space, but when planted in groups or massed can provide spectacular flowering and architectural height. Great for border rears, cottage gardens, naturalized areas.

Part sun – part shade

Medium - moist

3-7 ft tall

August bloom
