

ECO-DRIVER

SECONDARY/POST-SECONDARY PROGRAM

Transportation accounts for 25% of Canada's greenhouse gas emissions. This program is designed to educate drivers on techniques that will reduce their greenhouse gas emissions, and save them money.

This program is funded by the City of Thunder Bay. The program includes an interactive presentation and engaging activities.

CURRICULUM CONNECTIONS

Grade 11 Environmental Science SVN3E

Big Ideas:

- Human Impact on the Environment
- Energy Conservation

Grade 11 Environmental Science SVN3M

Big Ideas:

- Scientific Solutions to Contemporary Environmental Challenges
- Conservation of Energy

LEARNING GOALS

We are learning about eco-driving techniques to reduce greenhouse gas emissions.

Please contact us at education@ecosuperior.org if you have any questions regarding our programs.
