

# FACING CHANGE: A NEW CLIMATE CONVERSATION SERIES

## SECONDARY/POST-SECONDARY PROGRAM

"Facing Change: A New Climate Conversation Series" offers multiple presentations tailored to meet curriculum needs and classroom interests. Presentations can be delivered as a comprehensive series or individually, allowing flexibility for educators to choose the best format for their students. Each session is designed to engage participants in critical discussions on climate change, fostering a deeper understanding of the science, impacts, and solutions. Whether used as a stand-alone presentation or as part of a broader educational initiative, this series equips students with the knowledge and tools to become informed and active global citizens.

Climate Change can be a difficult topic to discuss. Luckily we don't have to do it alone.

### PROGRAM OPTIONS

The Facing Change: A New Climate Conversation Series offers a variety of options to fit your needs. Choose just one, or complete the series at a discounted price of \$250!

1. The Science of Climate Change: An introductory presentation to cover the basics of climate change.
2. Describing Earth's Climate: How humans have studied Earth's climate and an in depth look at past and present climate science.
3. Let's Talk About It: A New Climate Conversation addressing Eco-Anxiety, Eco-Apathy, and how to discuss climate change with friends and family.
