

# *Jack in the Pulpit*

## *Arisaema triphyllum*

No woodland garden is complete without Jack in the Pulpit. A best-seller of the woodland, the pulpit-like flower yields bright red berries in late summer. Highly adaptable, this plant grows in almost any rich woodland soil, even in wet, swampy areas.

Part sun to full shade

Moist - wet soil

30-60cm tall

May – July bloom

Great understory plant!
