

# KEEP IT SUPERIOR

## GRADES 4-6 PROGRAM

This program is designed to educate students about how pollutants end up in Lake Superior. Discussion focuses on watersheds, the differences between storm sewers and sanitary sewers, and how these are connected to Lake Superior. Students will learn what they can do to help prevent pollutants from contaminating our water resources.

This program involves an interactive presentation with engaging activities, all included in the program fee!

### CURRICULUM CONNECTIONS

#### Grade 4

Life Systems: Habitats and Communities

**Overall Expectation B1.**

#### Grade 7

Life Systems: Interactions in the Environment

**Overall Expectation B1.**

#### Grade 5

Earth and Space Systems: Conservation of Energy Resources

**Overall Expectation E1.1**

#### Grade 8

Earth and Space Systems: Water Systems

**Overall Expectation E2.**

### LEARNING GOALS

We are learning about the Lake Superior Watershed.

We are learning about how we can protect our water resources.

Please contact us at [education@ecosuperior.org](mailto:education@ecosuperior.org) if you have any questions regarding our programs.
