

POLLINATOR PALS

GRADES 1-8 PROGRAM

Pollinator populations are declining around the world. In this program, students will learn about the importance of pollinators to our daily lives and what can be done to help them. Learning for grades 1-3 focuses on bee species to foster natural interest and respect for our fuzzy friends. Junior/Intermediate students will focus on pollinator biodiversity and the importance of the interrelationships within insect and plant species.

This program involves an interactive presentation with engaging activities, all included in the program fee!

CURRICULUM CONNECTIONS

Grade 1

Life Systems: Needs and Characteristics of Living Things

Overall Expectations B1 & B2

Grade 2

Life Systems: Growth and Changes in Animals

Overall Expectation B1

Grade 3

Life Systems: Growth and Changes in Plants

Overall Expectation B1

Grade 4

Life Systems: Habitats and Communities

Overall Expectation B1

Grade 6

Life Systems: Biodiversity

Overall Expectation B1

Grade 7

Life Systems: Interactions in the Environment

Overall Expectation B1
