

WATER WATCHERS

GRADES 1-3 PROGRAM

"If there is magic on this planet, it is contained in water" - Loren Eiseley

Water is fundamental to our existence and well being on Earth. In this program students learn about the importance of water in our lives and how they can become water protectors. Grades K-1 will focus on the importance of water, and learning how we can reduce our water waste. Grades 2-3 will discuss the importance of water in our lives and how pollution can impact the quality of our water.

This program involves an interactive presentation with engaging activities, all included in the program fee!

CURRICULUM CONNECTIONS

Grade 1

Life Systems: Needs and Characteristics of Living Things

Overall Expectation B1.

Grade 3

Life Systems: Growth and Changes in Plants

Overall Expectation B1.

Grade 2

Earth and Space Systems: Air and Water in the Environment

Overall Expectation E1.

LEARNING GOALS

We are learning about the importance of water in our lives.

We are learning about how we can protect our water resources.

Please contact us at education@ecosuperior.org if you have any questions regarding our programs.
