

# *Whorled Milkweed*

## *Asclepias verticillata*

Whorled Milkweed has very skinny, "whorled" leaves. The white flowers can be a greenish-white on some plants. It attracts many kinds of insects, including long-tongued bees, short-tongued bees, wasps, flies, butterflies, skippers and beetles. Whorled Milkweed is deer and rabbit-resistant. Note that it is rhizomatous, and will spread.

Full sun to part shade

Dry - medium moisture, sandy – loam soil
