

WINTER WALKERS

GRADES 1-3 PROGRAM

OUTDOOR WINTER PROGRAM

This program is completed outdoors in the snow! Discussion on how local animal species adapt to winter conditions with interactive activities. Students will learn about the hare, black bear, and moose.

This program involves an interactive presentation with engaging activities, all included in the program fee!

CURRICULUM CONNECTIONS

Grade 1

Life Systems: Needs and Characteristics of Living Things

Overall Expectation B2.

Earth and Space Systems: Daily and Seasonal Changes

Overall Expectation E2.

Grade 2

Life Systems: Needs and Characteristics of Living Things

Overall Expectation B2.

LEARNING GOALS

We are learning about local species of animals, and how their unique physical characteristics can help them during the winter months.
